Our much appreciated PTA is gearing up with their innovative and relevant measures of safe and error free functioning of the new academic year. A good quality school education is one of the strong foundations for nation building both for the Social and economic progress of the country. NIEPA (National Institute of Educational Planning and Administration) aligns with the National Education Policy 2020 at every step/ emphasis on improving student learning and innovative teaching strategies witnessed today from policy to action at all levels in the education system. We the management responsible leaders, Deeply rooted in the self emptying love of Christ crucified and the deep spirituality of our Founder’s Bl. Brigida Morello, imparting joyous service to people in Jaunpur specially through

educating and promoting quality teaching and learning, aiming at a school of excellence and give quality education directive, by applying the core concepts and principles of school leadership implementing 'Pedagogical Leadership Framework and Annual Pedagogical Plan to empower each other and providing opportunities for collaboration, we try to make the school's vision into reality and develop school as learning organizations.

As we are aware of the 'learning deficit' of the past years NEP based Annual pedagogical planning surely help our staff members to change the mind set learning culture and influence our students mind by innovative pedagogy like... innovative teaching and learning strategies... experiential learning ..... inquiry based learning, art integrated learning, etc... to develop creative problem-solving skills and help the students to develop their motor skills, language skills, social skills, decision making, risk taking and inventiveness. Using different applications and tools to make the content digitalize, PPT, projects, drawing etc... for better understanding and total engagement in class work both visual and digital perspective and balance also to Connect students with their own culture as well as with the wider world. CBSE had taken lot of trouble to update the heads and the teachers with webinars and workshops to equip them to face the forthcoming challenges in education.

To succeed in our mission, we must have single minded devotion to our Goal and the Blessings of the Almighty. "Let us then with confidence draw near to the throne of grace that we may receive mercy and find grace to help in time of need "and open our hearts to the grace of God amidst insecurity.
